CHINACOAT2019 SHOW DIRECTORY DIGITAL VERSION USER MANUAL

USB DEVICE CONTENT

The USB device contains detailed profiles of all CHINACOAT2019 exhibitors as well as supplement content of the Show Directory. All the materials are in PDF format. The USB device is divided into read-only and rewritable partitions.

USB DEVICE INSTRUCTIONS

User's Computer should be able to read the USB device once it is inserted into the computer's USB port. No installation is required.

User's Computer will display a message saying "A new hardware is detected " if the USB device is inserted into the computer for the first time. The Computer will then display a message saying "The new hardware is installed and is ready to use" (Computer might need to be restarted in some cases). TWO additional harddisk icons can be found when you click to open "My Computer", as shown in Figure 1:

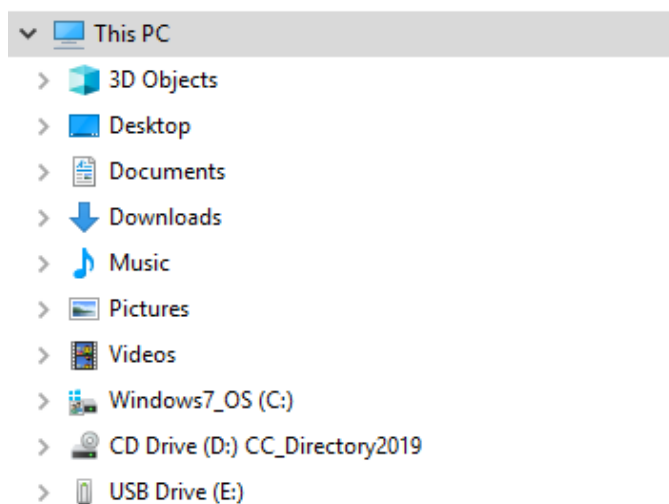

Figure 1

In Figure 1, the D:drive showing "CC_Directory2019" contains Exhibitors' profiles and supplement contents of the Show Directory. The E:drive with the name "USB Drive" (or noname) is a rewritable drive with no content inside.
